DC SCHOOL OF
ARCHITECTURE AND DESIGN

B.Arch

BACHELOR OF
ARCHITECTURE

Vagamon

Eligibility:

Applicants must have passed the 10 +2 exam with 50% marks in Physics, Chemistry & Maths & a valid NATA score.

Why a Residential Programme for Architecture and Design?

Architecture and Design require the student to always have an open mind to learn and absorb from their surroundings, peers and teachers. A residential programme enhances this opportunity INFINITELY. DCSAAD's RESIDENTIAL programs in architecture and design offer our students unique advantages:

1. Living, studying, working and socializing together, improves DCSAAD students' chances to learn from each other and build a spirit of collaboration.
2. Living and working together fosters a feeling of community where all DCSAAD members become a family.
3. Living on campus provides the DCSAAD student the flexibility and opportunity to take advantage of all the various campus activities that are offered to students round the year.
4. Weekends on DC campus are as energetic as weekdays for DCSAAD students with special tours, workshops, club and social activities.
5. DCSAAD students have full-time Resident Faculty Members who live alongside them, to offer their advice, academic mentoring, emotional support, and take care of overall development of the student.
6. Climate is one of nature's many gifts to DCSAAD. Our students learn to appreciate the beauty and diversity that the hills undergo with each change in climate.

Trivandrum

Bachelor of Architecture

The 5 year B. Arch course in DCSAAD, Trivandrum, is addressing the latest challenges, opportunities and pedagogies of Architectural education in the national and international scenarios and remodels them into the context of Kerala. The course is approved by Council of Architecture, New Delhi, and the college is affiliated to APJ ABDUL KALAM technological University or commonly known as Kerala Technological University.

Academic philosophy

The academic philosophy of DCSAAD aims at a holistic, sustainable and integrated approach through traditional and contemporary teaching-learning practices for developing the individuality & self-esteem in each student and to add value to their responsibilities as a social being.

Campus Infrastructure

Our campus of 2.5 acres which is located with in the lush green Kinfra Film and TV park, Kazhakootam.

- Library
- Well equipped computer lab
- Material museum & other labs
- Hostel & college bus facility
- Extra curricular activities supported by a basket ball court, shuttle court, gymnasium and an amphitheatre

THE CAPITAL BEKONS

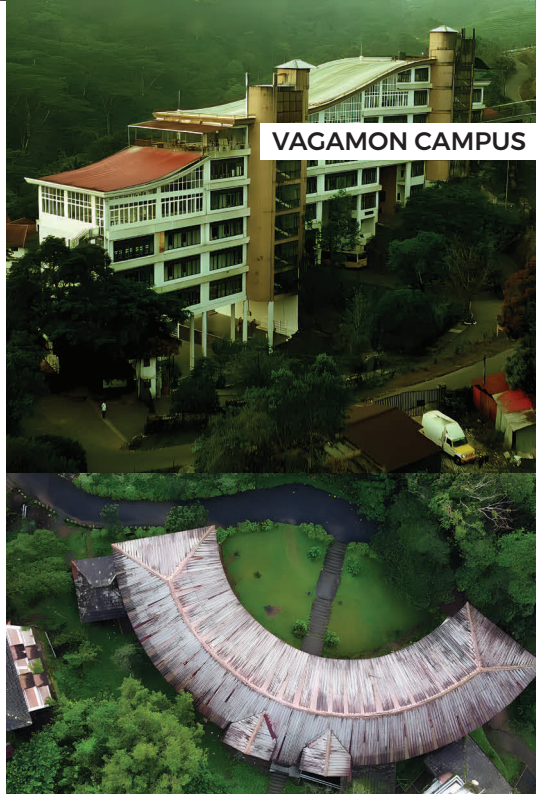

D C School of Architecture and Design Trivandrum, promoted by D C BOOKS is the latest capital city venture of D C KIZHAKEMURI Foundation who has been a major contributor to the educational and cultural realm of Kerala for several decades. The campus is addressing the latest challenges, opportunities and pedagogies of Architectural education in the national and international scenarios and remodels them into the context of Kerala.

TRIVANDRUM CAMPUS

THE VALLEY AWAITS

Architecture and Design require the students to always have an open mind to learn and absorb from their surroundings, peers and teachers. The **fully residential** program is designed to provide students with all round capabilities rather than acquisition of any academic degree. Students strive to be independent, develop critical thinking and problem solving skills while learning to live in a community.
