2.2.6 Internships

The objective of one month Internship after 2 semesters is to give the students the necessary domain knowledge on various industries so that the conceptual framework learned from various subjects could be applied to different domains appropriately. Internship will be considered as a core course in the second semester. The external evaluation will be conducted by the examiners appointed by the University and the internal evaluation by a panel constituted by the college. The criteria for evaluation will include Initial Report, Log Book, Presentation, Final report and Internship Viva Voce.

An internship provides the opportunity to gain hands on work experience that one cannot get in the classroom.

Employers see interns as prospective employees and many secure full time jobs with the firms later at the end of the programme. It is a chance to prove the worth of one's qualifications and to show that one can perform in the role assigned. Employers are usually more concerned with the candidate's work experience than his or her qualifications. Internships are often the only way to get the work experience one needs to secure a job and they are a vital part of one's resume. Many employers prefer or require applicants who have done an internship or have relevant work experience. In competitive job markets it helps to set you apart from others.

The students will strictly follow the rules and regulations of the organization in which they do the Internship. There will be assignments, presentations and tests based on these internships in most of the academic subjects.

The Project is an essential requirement and integral part of the curriculum for successful completion of the programme. During the fourth semester every student of the MBA programme is required to undertake a problem specific project work under the guidance and supervision of a member of the faculty and the report on the same has to be submitted before the commencement of the fourth semester University examination.

The contact hours required for the completion of the project work is a fixed at 160 hours distributed over a continuous period of two months. Students shall be deputed for the project work immediately after the completion of the fourth semester classes. The project work and project report will be evaluated for 100 marks. There will be external valuation for the project work and the project report. The external evaluation for 100 marks will be conducted by examiners duly appointed by the University for the purpose

2.2.7 Projects and Comprehensive Viva Voce

2.2.8 Attendance

The students will have to attend a comprehensive viva voce examination for 100 marks. The University will decide among the external examiners and constitute a board for conducting the comprehensive viva-voce examination along with project viva-voce examination. If any candidate secures less than 25 marks in the comprehensive viva voce examination, he/she needs to attend the same during the subsequent year. He/she will be given a total of three chances to clear the same.

Absenteeism of any kind will be dealt with severely and on a case-to-case basis. Students are required to secure the minimum attendance of 75% in each subject, prescribed by the University in order to fulfil the eligibility requirements for the University examinations. The students need to strictly comply with the attendance norms of 75% for the entire academic semester. In case of students, who are allowed to join the program after the commencement of class, pro rata attendance will be considered and extra classes will be organized for them to cover the gaps in syllabus coverage and attendance. Wherever necessary, parents will be informed of the absenteeism of the students from the classes. The Administration will keep track of the percentage of absence of every student in every subject. Once the percentage absence crosses 25%, the student will have to discontinue from attending the subject. No student will be absent from the sessions (academic and non academic) without the written permission of the Batch Coordinator. Those who are absent from the sessions without prior permission will be fined as per the Institute's rules detailed below. (Even if the BatchCoordinator gives permission to a student to be absent from a particular class, it will be considered as absence or calculating the required percentage of attendance for appearing for the University examinations.) A fine of Rs.100/- per hour will be charged for unauthorized absence from the sessions. The fine of unauthorized absence from occasional visiting faculty sessions will be Rs.500/ - per hour. Any student who fails to attend evening sessions will be fined Rs.100/- per hour. Please refer Section 6.3 for details of fines.

The fine system has been introduced to make the student understand the importance of attending classes regularly and to inculcate professionalism in every student. Attendance is compulsory for sessions mentioned above. Concerned teachers will submit attendance sheet to Examination Section/ to Principal's Office, every weekend. Every Monday, the percentage of absenteeism of each student will be informed by the concerned teachers. Attendance will be marked at the beginning of each session by the teacher handling the class. If any student comes to the class after the teacher has entered at the specified timings of the session, he/she will not get attendance, even if he/she is allowed to attend the class. A student absenting himself / herself without leave for more than 10 consecutive days may have his/ her name removed from the rolls.

BA Visual Arts (Interior Design) at DCSMAT, Vagamon (Affiliated to MG University)

Introduction

The BA Visual Arts (Interior Design) at DC School Vagamon is a three year, full time, fully residential programme in interior design preparing the students for a wide range of career opportunities in the industry such as publication design, advertising design, & most importantly in interior design.

The programme spanning six semesters which begins with art and architectural history, theory and traditional hand skills, then progresses to current art/ interior design practices and technology. The program encourages innovation while stressing on strong technical and presentation skills. Students gain a background in applied art/interior design theory and then experiment and develop their own creative approaches. During the course of the programme the candidates will have to undergo one internship of one month duration in an interior designing firm.

The programme gives an opportunity for the students to develop the basic skills in design, sculpture, painting, software skill (3D, AutoCAD, Photoshop), Video& Photography and interior design along with communicative skills in English.

Evaluation

There shall be an End Semester Examination (ESE) either written or practical for each course. A course carries a total of 4/3 credit marks each. The total credit for the entire programme is 120.

Evaluation of each course shall contain two parts

- i) Internal or In Semester Assessment (ISA)
 - ii) External or End Semester Assessment (ESA)
- the internal, external assessment ratio shall be 1:3.

The internal and external examination shall be evaluated using Direct Grading System based on 5 point scale as given below:

Internal Evaluation

Internal evaluation forms an integral part of the course to ensure an effective and continuous assessment of the students throughout the programme.

The break-up of weightage for internal evaluation in each theory paper shall be as follows:

	Weightage
Punctuality	5
Experimentation / Data Collection	5
Knowledge	5
Report	5
Total	20

The break-up of weightage for internal evaluation in practical papers will be as follows:

	Weightage
Test Papers	2
Attendance	3
Record	5
Total	10

End Semester Examination (ESE)

The End Semester Examination (ESE) shall be of 3/5- hour duration for written/practical respectively. Minimum required attendance for each semester shall be 75%. Those who do not attain the minimum attendance will not be eligible to register for the ESE examination.

Internship (On the Job Training)

Internship is on the job training to assimilate the professionalism in a career. Internships offer students a period of practical experience in the industry relating to their field of study. The students should have to undergo an Internship at an Interior Design Firm for one month at the beginning of the sixth semester. A faculty member should monitor the students during the internship. The students would prepare individual reports after the Internship and the same should be attested by the organization under which the student did the internship. The students' comprehensive report should be submitted to the HOD/Guide for evaluation.

Eligibility for a degree

The aggregate grade (external + internal) required for a pass in each course shall be D. Separate minimum of D Grade for both internal and external evaluation are required for a pass for a course.

xvi. Calculation of SGPA/CGPA

Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) are calculated as follows:

$$SGPA = \frac{\sum(C_i \times GP_i)}{\sum C_i}$$

where 'C_i' is the credit assigned for a course and 'GP_i' is the grade point for that course. Summation is done for all courses specified in the curriculum of that semester. The failed and incomplete courses shall also be considered in the calculation.

$$CGPA = \frac{\sum(C_i \times GP_i)}{\sum C_i}$$

where 'C_i' is the credit assigned for a course and 'GP_i' is the grade point for that course. Summation is done for all courses specified in the curriculum upto that semester for which the 'CGPA' is needed. Here the failed courses shall also be accounted. CGPA for the B. Arch program is arrived at by considering all course credits that are needed for the degree and their respective grade points. Equivalent percentage mark shall be

$$= 10 * CGPA - 2.5$$

2. Any act of financial extortion or forceful expenditure burden put on a junior student by senior students should be considered an aspect of ragging for ragging economic dimensions.
3. Any act of physical abuse including all variants of it: sexual abuse, homosexual assaults, stripping, forcing obscene and lewd acts, gestured, causing bodily harm or any other danger to health or person can be put in the category of ragging with criminal dimensions.
4. Any act or abuse by spoken words, emails, snailmails, blogs, public insults should be considered within the psychological aspects of ragging. This aspect would also include deriving perverted pleasure, vicarious or sadistic thrill from actively or passively participating in the discomfiture to others; the absence of preparing 'freshers' in the run up to their admission to higher education and life in hostels also can be ascribed as a psychological aspect of ragging - coping skills in interaction with seniors or strangers can be imparted by parents as well.

Library Access Guidelines

For accessing the library and its resources the following guideline might be useful.

OPAC (Online Public Access Catalogue)

The work station at the entrance of the library will guide you in locating the documents directly from the shelves. It is having a user interface to the library's holdings database and can be searched for author, title, subject, call no. and free text. The Boolean search facility is also provided. For retrieving documents from the library you have to locate the call no. of the document from this database.

Dewey Decimal Classification Scheme

It is a scheme of classification used all over the world to arrange books according to the subjects covered. It has got ten major sub-divisions, which are divided with a decimal expansion to provide for even the smallest topics. For eg. 600 is the major class for applied sciences and one of its sub-division is 650 which represents management and auxiliary subjects. A sub division of management is 658 which represents general management and 658.45 is the no. for business communication.

Call Number: Every book is given a classification No. according to the subject content of the book/ scheme of classification. Since there are many books under the same subjects, it is necessary to have a means for distinguishing one book from the other. This is being done by assigning author No. in addition to the classification No. This no. arranges all books in the same class alphabetically according to the author's surname. The following example will illustrate the make up of the call No. 658.8, Dewey classification No. KOT. First three letters of author's surname or main entry.

(When you pull out books from the shelves, please leave them on the tables so that staff can make sure they are returned to their proper places)
